

Camellias

'Autumn Pink Icicle' *Camellia oleifera* -5'-6' Large, double, peony-like blooms are rose-pink. This is an extremely cold hardy variety with an upright habit.

'Black Magic' *Camellia japonica* - 10' Very dark glossy rose-form red blooms that look like they were dipped in high-gloss polyurethane! Leaves are shiny and holly-like with an upright habit. Bloom time is late winter and it displays superior cold hardiness.

'Bonanza' *Camellia sasanqua* – 4'-5' Rosy red blooms with a peony form arrive in early fall and weather permitting will bloom throughout the winter. Foliage is a glossy dark green and the plant has a spreading habit. It displays excellent cold hardiness.

'Brandy's Temper' *Camellia sasanqua* - 6'x4' Blood red blooms in mid fall with small, shiny dark green leaves. It features an upright and open habit and is cold hardy.

'Chansonette' *Camellia sasanqua* - 2'-3'x8' Brilliant pink peony blooms from mid to late fall with a prolonged blooming time. Leaves are glossy dark green with a spreading habit. It displays excellent cold hardiness.

'Corkscrew Egao' *Camellia sasanqua* - 6'-8' A truly unique plant with a twisting and turning growth habit. Large peony form pink flowers arrive in fall and bloom sporadically throughout winter. This plant is very cold hardy.

'Dahlonaga' *Camellia japonica* – 8'-10' Blooms are a unique parchment yellow and fully double. It is considered the best “yellow” camellia to date. It blooms in late winter and is very sturdy with an upright, compact growth habit and cold hardy.

'Daijokhan' *Camellia japonica* – 8-10' This is an ancient “Palace Camellia” from an inner courtyard in China. Until recently it was forbidden to remove a cutting from this plant. The informal double flowers are pristine white and bloom in late winter. It displays superior cold hardiness.

'Daydream' *Camellia sasanqua* – 12'-15' The single white flowers are edged in pink and they arrive in early fall and sporadically blooms throughout winter. It has an upright habit and is a rapid grower with excellent cold hardiness.

'Debutante' *Camellia japonica* – 12'-15' Large peony form blooms are a clear light pink and arrive in late winter. The leaves are a lustrous dark green and cold hardy.

'Dianna' *Camellia sasanqua* – 6'x4' White blooms with showy yellow stamens arrive in mid fall. This bushy, upright plant has lustrous dark green leaves and is cold hardy.

'Dr. Tinsley' *Camellia japonica* – 10'-15' This variety is more like a wild rose than a camellia. The semi-double blooms are soft pink with deeper shaded edges. Bloom time is in late winter and it features an upright, compact habit. It displays excellent cold hardiness.

'Edna Campbell Variegated' *Camellia japonica* – 8'-10' Striking selection with very large semi-double to peony form blooms that are a deep red mottled with white. It has a compact, rounded habit and blooms in mid winter and has superior cold hardiness.

'Egao Shibori' *Camellia sasanqua (vernalis)* – 8'-10' Dark green leaves are mottled with gold throughout. Exceptional flowers are large, semi-double, and heavy-textured. The bloom color is an unusual coral-peach-pink that is marbled in white to various degrees. It is a vigorous grower with an upright, bushy habit and very cold hardy.

'Elizabeth Ann' *Camellia japonica* – 6'x6' The formal double blooms of this camellia are white edged with light pink. It is a vigorous grower with a bushy habit and is cold hardy.
